WORK EXPERIENCE

Banking KYC Data Entry Executive — 1 Year

- Reviewed, verified, and entered customer KYC documentation in accordance with banking compliance standards.
- Maintained high accuracy in data entry across large volumes of sensitive financial records.
- Organized and cross-checked documentation to ensure consistency and audit readiness.
- Identified and flagged discrepancies in submitted records to support process reliability.

Mortgage Data Entry Associate — 6 Months

- Processed and entered mortgage-related documentation with close attention to accuracy and compliance.
- Maintained organized digital records to support efficient retrieval and reporting.
- Collaborated with team members to ensure timely completion of data processing tasks.

FREELANCE & CLIENT EXPERIENCE

Freelance Web Developer — Business Website Development Project

- Gathered client requirements and translated them into a functional website plan.
- Designed and implemented responsive UI/UX and built the frontend using HTML, CSS, and JavaScript.
- Integrated backend functionality and managed data handling for site features.
- Tested the website across devices and browsers prior to launch, then deployed and hosted it for the client.
- Managed revisions and ongoing maintenance based on client feedback, demonstrating ownership and reliability.

Freelance Data Entry Operator — Client Data Entry Engagement

- Hired by a client to digitize paper records: received physical documents and accurately entered the information into the client's web platform.
- Kept entries accurate and consistent with the source documents while working independently and delivering on the client's requirements.

PROJECTS

Technical / Web Development

- Business Website Development — Built and deployed a full client-facing business website, handling design, development, and hosting end-to-end.
- Discord Bot Development — Designed and built a custom Discord bot, applying programming logic and API integration to automate community functions.
- Chrome Extension Development — Developed a browser extension from concept to functionality, applying JavaScript and front-end engineering skills.
- Portfolio Website Development — Designed, built, and deployed a personal portfolio site to showcase projects and technical skills.
- AI Productivity Systems & Workflow Experiments — Designed and tested personal workflows using AI tools for research, documentation, and content production, improving personal productivity and accelerating learning of new technical concepts.

CONTENT CREATION

Creator — YouTube Channel: Rashqt

- Independently managed end-to-end content production, including research, script writing, voice-over recording, and publishing.
- Planned content around audience interests and applied creative strategy to maintain consistency and engagement.
- Demonstrated independent execution, communication skills, and digital content literacy.

Digital & Social Media Operations

- Applied content planning, audience research, and community engagement practices across digital platforms.
- Supported brand presence through content scheduling, online community interaction, and digital communication.

EDUCATION

Class 12 — Completed 2024

- Completed Class 12 in 2024 with Science (PCM) and Computer Science from Vivekananda Vidya Mandir School, Ranchi, Jharkhand.

B.Tech in AI & ML — Currently in 2nd Year

- Currently pursuing a B.Tech degree with a specialization in Artificial Intelligence & Machine Learning.
